To the Kōngma Sakyong, Jampal Trinley Dradül

Your Majesty,

In recognition of the 20th anniversary of your enthronement as the Sakyong of Shambhala, and on behalf of our entire community, the Shambhala Center of Seattle offers our hearts, our land, our buildings, and all our possessions to you, the Kōngma Sakyong, the Sakyong Lineage, and the Sakyong Potrang.

We acknowledge that you already possess these – that they have always belonged to you and the lineage – but we wish to pledge them anew today, without reservation, to use in the service of nurturing a good human society on this earth.

We understand that formally pledging all Shambhala lands and assets to the Sakyong Potrang will support your efforts to further create enlightened society. We acknowledge the potential challenges of consolidating these lineage assets under your direct control, but believe that realizing this vision will be of great benefit. We vow to exert ourselves until the full manifestation of this vision is accomplished.

With the deepest of bows,

Thomas Gaylord
